North Star BHP Steel mini mill, Design and start-up of the DUNHOLTER, D. A., Dec., p 49
Nucor-Berkeley: A high-quality, 1.8 million ton/year hot and cold rolled mini mill SAMWAYS, N. L., Oct., p 15
Nucor Steel, Performance of rebuilt cold reduction mill at YOUNG, K. J., ELLINGWOOD, J. C. and COOPER, B. K., Nov., p 46

O

Off-line shape gage characterizes cold mill shape profiles for tinplate applications KULIG SR., T. A., CARNEVALE, F. and PFEIFFER, T. J., Dec., p 28
Oil cleanliness considerations , Flushing large hydraulic systems SULLIVAN, J. M., July, p 39
On-line measurement of hot rolled sections, Reflex laser profile Gage SAGAR, G. M., Aug., p 60
On-line vision technology, Optimization of strip edge quality using LASKEY, P. S., May, p 41
Optimization of strip edge quality using on-line vision technology LASKEY, P. S., May, p 41
Optimizing performance of bar mill shear knives JASKO, J. T., Sept., p 41

P

PC and LAN for a level 2 setup model of a single-stand reversing mill, Application of GUO, R. M., Aug., p 41
Packaging line, Dofasco tin mill automated SMITH, D. F., EASLICK, J. and MONACO, G., Dec., p 23
Paint surface on different surface structure of steel sheet, Formation of STEINHOFF, K., RASP, W. and PAWELSKI, O., Mar., p 43
Painting line, Low investement speed-up of IMSA JARERO, C., MENDEZ, D. and SAINZ, B., Dec., p 40
Partnering and the WCI blast furnace reline MUSOLF, D. W., Nov., p 34
Performance of rebuilt cold reduction mill at Nucor Steel YOUNG, K. J., ELLINGWOOD, J. C. and COOPER, B. K., Nov., p 46
Phosphor system, Galvanneal thermometry with a thermographic MANGES, W. W., ALLISON, S. W. and VEHEC, J. R., Dec., p 33
Pickling, Submerged combustion: Lower costs, higher quality and faster throughput in acid WILLIAMS, R. and WALKER, R. B., June, p 55
Pickling line at National Steel, New SPANITZ JR., J. R. and KING, W., Sept., p 17
Pickling lines, Model-based control system for DOERNEMANN, A. G., Jan., p 47
Pictorial Review, 1997 Iron and Steel Exposition and *AISE* Annual Convention , Nov., p 59
Piping system in Republic s Cast-Roll process, Non-weld hydraulic WOY, A. L. and MacKAY, A. R., Apr., p 39
Plant shutdowns, Tom Graham talks about imports, labor, mini mills, and McMANUS, G. J., Nov., p 52
Plate: Lukens wide, cut to length line, Flatness control in coiled SMITH, R. P., JR., May, p 29
Plating line efficiency at Weirton Steel, Proactive maintenance enhances DOMINICK, J., Mar., p 25
Pollution prevention in the steel industry Toward a zero waste plant WRONA, L. H. and JULIEN G., June, p 59
Power and structural systems for electric arc furnaces, Maintenance of secondary SURGEON, D. A., May, p 24
Practical approach for expediting environmental corrective action MILLER, D. G., JR. and BARNETT, T. R., Feb., p 48
Preparing to enter the next millennium KELLY, J. P., Nov., p 69
President s Message 1997, Jan., p 8
Proactive maintenance enhances plating line efficiency at Weirton Steel DOMINICK, J., Mar., p 25
Process control, Honeywell introduces flexible system for hybrid, Oct., p 60
Process control system at U.S. Steel Fairfield No. 8 blast furnace, Upgrade of CAMLIC, R. L. and GOODMAN, N. J., Jan., p 17
Production increase, Reheat furnace upgrade results in BURNS, A. H. and FUHRMAN, F. L., Feb., p 59
Program, 1997 Iron and Steel Exposition and *AISE* Annual Convention Technical, Sept., p 77
Projects and Philosophies Advancing The Making, Shaping and Treating of Steel, Apr., p 49

R

Rebuilt cold reduction mill at Nucor Steel, Performance of YOUNG, K. J., ELLINGWOOD, J. C. and COOPER, B. K., Nov., p 46
Reclamation of water and scale, Techniques for WALLIN, K. M. F. and SCHLITTLER, W., Aug., p 64
Reconditioning, Gear spindle management and RYAN, T. M., WESTRA, A. P. and deJESUS, J. M., JR., Mar., p 17
Reduction mill at Nucor Steel, Performance of rebuilt cold YOUNG, K. J., ELLINGWOOD, J. C. and COOPER, B. K., Nov., p 46
Reflex laser profile gage On-line measurement of hot rolled sections SAGAR, G. M., Aug., p 60
Regulation, Electrohydraulic control system for coke oven backpressure TRUETT, C. T. and FOHNER, D. G., Nov., p 32
Reheat furnace upgrade results in production increase BURNS, A. H. and FUHRMAN, F. L., Feb., p 59
Reline, Partnering and the WCI blast furnace MUSOLF, D. W., Nov., p 34
Reline and upgrade of Wheeling-Pittsburgh No. 5 blast furnace KAKASCIK, T. F., Jr., Jan., p 28
Republic s Cast-Roll process, Non-weld hydraulic piping system in WOY, A. L. and MacKAY, A. R., Apr., p 39
Resistance factor design of stepped crane columns, Load and MacCRIMMON, R. A., KENNEDY, D. J. L. and ALBERT, C., Oct., p 46
Return on investment for maintenance improvement projects, How to calculate WIREMAN, T., Mar., p 29
Reversing mill, Application of PC and LAN for a level 2 setup model of a single-stand GUO, R. M., Aug., p 41
Rod and bar mills, A-c motor and drive technology for wire AUST, R. P. and ROETHER, M., Nov., p 49
Rodney B. Mott Elected 1998 *AISE* President, Oct., p 63
Roll shaping machine for hot strip mill work rolls, Development and application of built-in KINOSE, R., KONDOH, S. and MORI, S., Jan., p 32
Rolled mini mill, Nucor-Berkeley: A high-quality, 1.8 million ton/year hot and cold SAMWAYS, N. L., Oct., p 15
Rolled sections, Reflex laser profile Gage On-line measurement of hot SAGAR, G. M., Aug., p 60
Rolled strip, Methods for attaining particular roughness on cold DEUTSCHER, O., May, p 35
Rolling: A global approach, Control of strip flatness in cold NAPPEZ, C., BOULOT, S. and McDERMOTT, R. C., Apr., p 42
Rolling: Matching the requirements of integrated producers, Flexible thin-slab DONINI, E. A., BORSI, R. and CARBONI, A., June, p 39
Rolling at Kawasaki Steel Chiba Works, Endless hot strip TAKANO, T., MATSUDA, K., MORIYA, S., SHIBATOMI, N., MITO, Y. and HAYASHI, K., Feb., p 41
Rolling concept for economical processing of quality products, ISP Thin slab casting and KOTHE, D., KRUGER, B., PLESCHIUTSCHNIGG, F.-P., SPANGENBERG, M. and CAESAR, C., June, p 31
Rolling mills, Design and selection of, Universal joints for PALUH, J. H., HILLS, G. R. and WOJTKOWSKI, T. C., Dec., p 42
Rolling mills, Selection of optimum strip profile and flatness technology for GINZBURG, V. B. and AZZAM, M., July, p 30
Rolling of interstitial-free steel, Ferritic PARKS, W. H., HAGGERTY, C. S. and ROCK, T. R., Oct., p 35
Rolling of thin gage strip steel at Hylsa, Hot LeDUC-LEZAMA, L. A., del MERCADO, M. V. and de la PENA, R. G., Apr., p 27
Rolling specialty long products, Advanced process and equipment for SCHARF, J., ALBRECHT, E. and BOLLIG, G., July, p 27
Rust belt, Steel mill historians fight to save grand canyons of the, Dec., p 60
